At the Sept. 22 special meeting with District Traffic Engineer Edward W. McCulloch we learned that the State Highway Commissioner does not speed zone gravel roads; but if the Town Board insisted, they would make the study, establish speed zones and have the signs put up. This would cost the Town around \$1,000; probably more for the roads involved. The Board voted to recall the speed zone request.

The letter from the State Conservation Department about state land for a dump ground was read. When the Board learned that the County Planning & Zoning Co-Ordinator is studying various pick-up stations in the county, they voted to suspend action on this until the Co-Ordinator's study is completed, probably about February.
